

**Protocol form for research proposal to be submitted to the Committee on
use of human samples in Biomedical Research for new/ongoing project**

For Office Use:	
IITR-IHEC Proposal No.	

1. Project Title:

2. Name of Principal Investigator (PI):

Designation & Address:

Email ID:

Mob.:

Tel:

(O) :

3. Name of Co-Investigator(s) (Co-I):

Designation & Address:

Email ID:

Mob.:

Tel:

(O):

4. (a) Funding source(s) if any:

(b) Are sufficient funds available for performing experiments with human samples?

(c) Duration of the present project:

(d) Numbers of months:

(e) Date of start of project (Experiment):

(f) Date of termination of the project (Experiment):

5. Date by which approval is needed in case the project is funded by an outside agency

(If less than 6 weeks from the date of admission, please justify below):

6. Summary of project: *{Briefly summarized in layman's terms the background, objective, and experimental approach}*

7. (a) Approximate amount of human biological samples required in the first 12 months:
- (b) Justification of the amount:
8. List of methods to be used for collecting biological samples from human individuals:
- a) Procedure for collecting samples:
- b) Subject will be under anesthesia while sampling:
9. Does the protocol prohibit the use of anesthetic and analgesics while sampling or conducting painful procedures? If yes explain and justify
- Note: Painful procedure is considered to be which causes more pain than that associated with routine injection or blood withdrawn.*
10. In case of collecting tissue samples will the organs/tissues be removed completely or partially:
11. Personal who will perform the surgery:
- Name
- Designation
- Qualification
12. Will hazardous agents such as radioisotopes, carcinogens, radiation, exposure, Microbial and parasitic agents be used in the experiments? If yes, give the following details:

Note. Dose should be identified as Low (1), moderate (2,3,4) and high (5).

	Radio Activity	Infectious Agents	Carcinogens exposure	Radiation
Agents				
Dose				
Mode of Use				
Total Activity				
Duration of Use				

13. Mode of disposal of Contaminated urine/ blood/ semen/ tissue samples:

14. If an infectious agent is involved, specify therapy for treatment of as well as preventive measure available:

Name and Signature of Investigator(s)

Date: _____
